Ortman Hotel

It's been a great 94 years!
Exciting new changes coming!

Moving Forward

By Emily Petersen

I am sure all of our patients are curious on what happened at the Ortman Hotel for us to close the doors. There were many factors that played a part. There were 3 pipes that burst December 24, 2022 that caused major damage on the south side of the building on all four floors. Then, the Department of Health inspected the building early 2023 and felt the hotel's fire safety systems wasn't sufficient enough for modern time standards.

The Fire Marshall was involved and inevitably we either had to fix and update to their requirements or close. With a heavy heart the owners had no choice but to close.

I believe there is always good that comes from bad. This will be true in this insistence as well. We will all miss this historic building, but now we can focus on building the future.

There is exciting news popping up all the time with potential new builds to expansions.

Stay tuned and always call us at the clinic for any questions you may have.

New Owners of Ubar!

My name is Morgan Kerrigan. My husband, Mike, and I are excited to announce that the motel previously known as the UBar Inn and Suites is under new ownership. While we acknowledge the challenges of the past, we are determined to breathe new life into this iconic establishment, rekindling its former glory and beyond. We have lots of plans for the motel starting with a new name: **Dakota Prairie Inn and Suites**. We look forward to this journey and hope you stay with us. **For reservations you can call (605) 296-3466 or (605) 323-8040.**

Sincerely,
Morgan

Share Your Story

Remember how you felt when you walked through our door? Maybe you were at your wits end, tired of seeking answers to a health problem that wouldn't go away. Maybe you believed you would never feel good again.

Our doctors have successfully treated a wide variety of conditions originating in the spine, joints, and surrounding muscles and nerves. Conditions we have treated include back and neck pain, migraines, sciatica, pinched nerves and fibromyalgia - to name a few. Patients usually report relief from pain within a few days of their treatment. Specific conditions may require physiotherapies, supportive services or co-management with your medical doctor.

Using the Ortman Technique, our doctors help return proper nervous system function to promote natural healing. We have received countless testimonials from patients throughout the 106+ years who returned to their desired health. Do you have a success story with us? If you would like to share your story, speak with a staff member at your next appointment to find out how!
